

# Authentication & Account Management

1. **As a user, I want to sign in** using my Google account so that I can access the application without creating a separate username and password.
  - a. Assigned to: Aditya Vellampalli
    - A user can click a button labeled “Sign in with Google.”
    - The app redirects the user to Google for authentication.
    - If authentication succeeds, the user is returned to the app and a new account is created if one does not already exist.
    - If the account exists, the user is logged in.
    - If authentication fails, the user sees an error message and stays on the login page.
    - The user session is stored only after a successful login.
2. **As a user, I want to sign out** of my account so that I can securely end my session and prevent others from accessing my data
  - a. Assigned to: Aditya Vellampalli
    - A user can click a visible “Sign out” option from the dashboard or navigation bar.
    - After sign out, the user is redirected to the login page.
    - The user should not be able to access any protected pages unless they sign in again.
3. **As a user, I want to delete my account** so that I can remove all my data from the application when I no longer wish to use it
  - a. Assigned to: Aditya Vellampalli
    - A user can navigate to an account settings page with a “Delete Account” option.
    - The user must confirm the deletion through a confirmation prompt.
    - After confirmation, the account and associated data are permanently removed.
    - The user is signed out and redirected to the login page after deletion.
    - Deleted accounts cannot sign in again unless a new account is created.
4. **As a user, I want to edit my personal details** so that my profile information stays accurate and up to date.
  - a. Assigned to: Aditya Vellampalli
    - A user can open a profile or settings page to update details such as first name and last name, password, profile photo.
    - The form shows the user's current information.
    - After saving, the updated details appear immediately in the profile.
    - Invalid or empty fields show clear error messages.
    - The system stores changes only after a successful update
5. **As a user, I want to add, update, or remove my profile picture** so that my account reflects my identity
  - a. Assigned to: Aditya Vellampalli

- A user can upload a new profile picture in supported image formats.
  - The user can replace an existing picture with a new one.
  - The user can remove the current profile picture and revert to a default image.
  - The image preview updates immediately after changes.
  - Invalid file types or oversized images show appropriate errors.
- 

## Core Post Functionality

6. **As a logged in user, I want to create a post**, so that I can capture the events of my life in it
  - a. Assigned to: Eshan Kelkar
  - b. Background:
    - i. Given I am signed in with Google
  - c. Acceptance criteria 1: User creates a post
    - i. Given I visit the dashboard page
    - ii. When I click "Create Post"
    - iii. Then I should see a new post created with defaults
7. **As a logged in user, I want to attach videos to my posts**, so that I can associate a post with related videos
  - a. Assigned to: Eshan Kelkar
  - b. Background:
    - i. Given I am signed in with Google
    - ii. And a post exists with:
      1. | title | Holidays |
      2. | creator\_email | test-user@example.com |
      3. | videos | test\_mp4\_video.mp4 |
    - iii. And a post exists with:
      1. | title | No attached videos |
      2. | creator\_email | test-user@example.com |
  - c. Acceptance Criteria 1: User views a post with a video
    - i. When I visit the view post page for "Holidays"
    - ii. Then I should see the "test\_mp4\_video.mp4" video
  - d. Acceptance Criteria 2: User attaches a video to the post
    - i. Given I visit the edit post page for "No attached videos"
    - ii. When I attach the following media files to the post:
      1. | test\_mp4\_video.mp4 |
    - iii. And I click "Update"
    - iv. Then I should be on the view post page for "No attached videos"
    - v. And I should see the "test\_mp4\_video.mp4" video
  - e. Acceptance Criteria 3: User attaches multiple videos to a post
    - i. Given I visit the edit post page for "No attached videos"

- ii. When I attach the following media files to the post:
      - 1. | test\_mp4\_video.mp4 |
      - 2. | test\_mov\_video.mov |
    - iii. And I click "Update"
    - iv. Then I should be on the view post page for "No attached videos"
    - v. And I should see the "test\_mp4\_video.mp4" video
    - vi. And I should see the "test\_mov\_video.mov" video
- 8. **As a user, I want to view a post** so that I can see its details
  - a. Assigned to: Eshan Kelkar
  - b. Background:
    - i. Given I am signed in with Google
    - ii. And a post exists with:
      - 1. | title | Holidays |
      - 2. | creator\_email | test-user@example.com |
      - 3. | images | test\_jpg\_image.jpg |
  - c. Acceptance Criteria 1:
    - i. When I visit the view post page for "Holidays"
    - ii. Then I should see "Holidays"
    - iii. Then I should see "test-user@example.com"
    - iv. Then I should see images attached to "Holidays" post
- 9. **As a user, I want to edit a post I created** so that I can correct or update its content.
  - a. Assigned to: Eshan Kelkar
  - b. Background:
    - i. Given I am signed in with Google
    - ii. And a post exists with:
      - 1. | title | Holidays |
      - 2. | creator\_email | test-user@example.com |
      - 3. | images | test\_jpg\_image.jpg |
    - iii. And a post exists with:
      - 1. | title | No attached images |
      - 2. | creator\_email | test-user@example.com |
  - c. Acceptance Criteria 1: User visits the edit page
    - i. When I visit the view post page for "Holidays"
    - ii. And I click "Edit"
    - iii. Then I should be on the edit post page for "Holidays"
  - d. Acceptance Criteria 2: User edits the post title
    - i. Given I visit the edit post page for "Holidays"
    - ii. When I edit post title to "End of Holidays"
    - iii. And I click "Update"
    - iv. Then I should be on the view post page for "End of Holidays"
    - v. Then I should see "End of Holidays"
  - e. Acceptance Criteria 3: User edits the post description
    - i. Given I visit the edit post page for "Holidays"
    - ii. When I edit post description to "Its the end of holidays !"

- iii. And I click "Update"
    - iv. Then I should be on the view post page for "Holidays"
    - v. And I should see "Its the end of holidays !"
  - f. Acceptance Criteria 4: User attaches an image to the post
    - i. Given I visit the edit post page for "Holidays"
    - ii. When I attach the following media files to the post:
      - 1. | test\_png\_image.png |
    - iii. And I click "Update"
    - iv. Then I should be on the view post page for "Holidays"
    - v. And I should see the "test\_png\_image.png" image
  - g. Acceptance Criteria 5: User attached multiple images to a post
    - i. Given I visit the edit post page for "No attached images"
    - ii. When I attach the following media files to the post:
      - 1. | test\_jpg\_image.jpg |
      - 2. | test\_png\_image.png |
    - iii. And I click "Update"
    - iv. Then I should be on the view post page for "No attached images"
    - v. And I should see the "test\_jpg\_image.jpg" image
    - vi. And I should see the "test\_png\_image.png" image
- 10. **As a user, I want to delete a post** so that I can remove content I no longer want to keep.
  - a. Assigned to: Eshan Kelkar
  - b. Background:
    - i. Given I am signed in with Google
    - ii. And a post exists with:
      - 1. | title | Holidays |
      - 2. | creator\_email | test-user@example.com |
  - c. Acceptance Criteria 1: User deletes an existing post
    - i. Given I visit the view post page for "Holidays"
    - ii. And I click "Delete"
    - iii. Then I should be on the dashboard page
    - iv. And I should see "Post destroyed successfully"
- 11. **As a user, I want to create a post with an attached location**, so that others can see where the post was created or where the event took place.
  - a. Assigned to: Yifei Wang
  - b. Acceptance Criteria 1: Add Location When Editing a Post
    - i. Given a signed-in user and a post already exists,
    - ii. When the user visits the edit page for that post,
    - iii. And fills in the location fields (address, city, state, ZIP, country),
    - iv. And updates the post,
    - v. Then the user is redirected to the post's view page,
    - vi. And the saved location information is displayed on the post.
  - c. Acceptance Criteria 2: View a Post With Location Information
    - i. Given a post that already has location information saved,

- ii. When the user visits the post's view page,
    - iii. Then the full location details (address, city, state, ZIP, country) are visible,
    - iv. And a link to "View on Google Maps" is shown.
  - d. Acceptance Criteria 3: Edit Existing Location Information
    - i. Given a post that already contains location data,
    - ii. When the user visits the edit page,
    - iii. And updates one or more location fields (such as city or ZIP),
    - iv. And saves the changes,
    - v. Then the user is redirected to the post's view page,
    - vi. And the updated location appears,
    - vii. And the old location values no longer appear.
12. **As a user, I want to see my post's address on Google Maps** so that I can quickly view the exact location.
- a. Assigned to: Yifei Wang
  - b. Acceptance Criteria 1: Google Maps link appears for posts with location data
    - i. Given a post exists with saved location information (address, city, state, ZIP, country),
    - ii. When I visit the post's view page,
    - iii. Then I should see the full location displayed,
    - iv. And I should see a "View on Google Maps" link,
    - v. And the link should direct to the correct Google Maps search for that location.
13. **As a user, I want to add a caption to the media files in my post** so that I can describe what each image or video represents.
- a. Assigned to: Yifei Wang
  - b. Acceptance Criteria:
    - i. The user can add or edit a caption on a media file when editing a post.
    - ii. After saving the post, the caption appears below the corresponding media item on the view post page.
    - iii. Updated captions replace previous captions.
14. **As a user, I want to view my photo gallery**, so that I can see all photos from my posts in one place.
- a. Assigned to: Yifei Wang
  - b. Acceptance Criteria 1: Authenticated user views photo gallery
    - i. Given I am signed in with Google,
    - ii. When I visit the Photo Gallery page,
    - iii. Then I should see "Photo Gallery" as the page title,
    - iv. And I should see a "Back to Dashboard" link.
  - c. Acceptance Criteria 2: Navigate back to dashboard
    - i. Given I am signed in with Google,
    - ii. When I visit the photo gallery page,
    - iii. And I click "Back to Dashboard",
    - iv. Then I should see the Dashboard page.
  - d. Acceptance Criteria 3: Photos in the gallery link back to their posts

- i. Given I am signed in with Google,
  - ii. And a post exists with the title "Beach Vacation", created by test-user@example.com
  - iii. , and containing an image file named test\_jpg\_image.jpg,
  - iv. When I visit the photo gallery page,
  - v. Then I should see the photo(s) from the "Beach Vacation" post displayed in the gallery,
  - vi. And I should see a link that navigates to the "Beach Vacation" post.
- 15. **As a user, I want to view all videos from my posts in one place**, so that I can easily browse and access my entire video collection.
  - a. Assigned to: Yifei Wang
  - b. Acceptance Criteria 1: Authenticated user views video collection
    - i. Given I am signed in with Google,
    - ii. When I visit the Video Collection page,
    - iii. Then I should see "Video Collection" as the page title,
    - iv. And I should see a "Back to Dashboard" link.
  - c. Acceptance Criteria 2: Navigate back to Dashboard
    - i. Given I am signed in with Google,
    - ii. When I visit the video collection page,
    - iii. And I click "Back to Dashboard",
    - iv. Then I should see the Dashboard page.
  - d. Acceptance Criteria 3: Videos in the collection link back to their posts
    - i. Given I am signed in with Google,
    - ii. And a post exists with the title "Movie Night", created by test-user@example.com
    - iii. , and contains a video file test\_mp4\_video.mp4,
    - iv. When I visit the video collection page,
    - v. Then I should see all videos from the "Movie Night" post displayed in the collection,
    - vi. And I should see a link that navigates to the "Movie Night" post.
- 16. **As a user, I want to create a copy of my own post** so that I can edit or republish it without rebuilding it from scratch
  - a. Assigned to: Aditya Vellampalli
    - A user can click a button labeled "Duplicate Post" on any post they created.
    - Clicking the button creates a new draft post that contains:
      - The same caption
      - The same media files
      - The same tags
    - The duplicated post must remain in draft mode until the user explicitly posts it.
    - The duplicated post must clearly show that it is a copy, not the original.
    - If duplication succeeds, the user is redirected to the edit screen of the new draft.

- If duplication fails due to an internal error, the user sees an error message and the original post remains unchanged.
17. **As a user, I want to create a copy of another user's post** that I have permission to view so that I can replicate or reuse their content for my own feed
- a. Assigned to: Aditya Vellampalli
    - A user can click a button labeled "Duplicate Post" on a post created by another user, provided the viewer has permission to view that post.
    - Clicking the button creates a new draft post for the viewer that contains:
      - The same caption
      - The same media file.
      - The same tags (only tags allowed for the viewer)
    - The duplicated post must belong to the viewer and not reference the original creator.
    - The duplicated post must remain in draft mode until the user chooses to post it.
    - If duplication succeeds, the user is redirected to the edit screen of their new draft.
    - If duplication fails due to a permission issue or internal error, the user sees a clear error message and no content is duplicated.
- 

## Tag Management

18. **As a user, I want to create a new tag with a name** so that I can organize and filter my posts.
- a. Acceptance:
    - i. When I submit a tag name, a new tag is created for me if the name is not blank and not already used by me.
    - ii. I receive confirmation that the tag was created.
    - iii. The newly created tag appears in my list of tags, sorted alphabetically.
    - iv. If I submit a blank name or reuse a name I've already used, I see helpful validation messages and no tag is created.
  - b. Assigned to: Amish Shrestha
19. **As a user, I want to edit an existing tag's name** so that I can keep my tags consistent and fix mistakes.
- a. Acceptance criteria
    - i. I can update a tag's name directly from the list of tags.
    - ii. If I enter a valid new name, the tag updates and I see a success message.
    - iii. If I enter a blank name or one I've already used, I see validation errors and the original name stays unchanged.
    - iv. I can only edit tags that belong to me.
  - b. Assigned to: Amesh Shrestha

20. **As a user, I want to see a list of all the tags I've created** so that I can quickly choose, edit, or delete them.
- a. Acceptance criteria
    - i. The tags page shows only the tags I've created, sorted by title.
    - ii. Each tag shows options to edit or delete it.
    - iii. The page includes a form that allows me to create a new tag.
  - b. Assigned to: Amesh Shrestha
21. **As a user, I want to delete a tag I no longer need** so that I can keep my tagging system organized.
- a. Acceptance criteria
    - i. When I delete a tag, it is removed from my list and I receive a confirmation message.
    - ii. Any connections between that tag and my posts are also removed so that nothing is left behind.
  - b. Assigned to: Amesh Shrestha
22. **As a user, I want to add tags to a post** so that I can categorize my content and make related posts easier to find.
- a. Acceptance criteria
    - i. When editing a post, I can choose from my own tags to apply to that post.
    - ii. Tags I select are saved with the post; tags I unselect are removed from the post.
    - iii. The system prevents duplicate tag associations.
    - iv. I cannot apply another user's tags to my post.
    - v. On the post's show page, the tags appear when the post has any.
  - b. Assigned to: Amesh Shrestha
- 

## Post Filtering

23. **As a user, I want to filter my posts by selecting one or more tags** so that I can quickly find posts related to specific themes.
- a. Acceptance criteria
    - i. The feed displays a checklist of my tags that I can filter by.
    - ii. Selecting one or more tags shows posts that include *any* of the chosen tags.
    - iii. My selected filters stay visible and checked after filtering.
    - iv. This works in both my personal feed and any shared-feed views (for shared feeds, filters apply to the other user's tags).
  - b. Assigned to: Amesh Shrestha
24. **As a user, I want to filter my posts by a start and end date** so that I can view posts from a specific time period.
- a. Acceptance criteria

- i. I can filter posts using a start date, an end date, or both.
      - ii. Posts are shown if they fall within the selected date range.
      - iii. Leaving either date blank simply removes that boundary.
    - b. Assigned to: Amesh Shrestha
  - 25. **As a user, I want to apply filters when viewing another user's shared feed** so that I can quickly find the specific posts I'm interested in.
    - a. Acceptance criteria
      - i. When viewing a shared feed, I can filter by the other user's tags and by date.
      - ii. The status filter is hidden in shared feed views.
      - iii. Filter results show only that user's posts and reflect the selected tag and date filters.
      - iv. The UI keeps my filter selections visible after applying them.
    - b. Assigned to: Amesh Shrestha
- 

## Archiving

- 26. **As a user, I want to view all of my archived posts** so that I can review or restore content I previously removed from the main feed.
    - a. Acceptance criteria
      - i. When I view my own feed, I can choose a **Status** filter that lets me switch between active posts and archived posts.
      - ii. Selecting **"Archived"** shows only the posts I have archived.
      - iii. By default, the feed shows active (non-archived) posts unless I change the status filter.
      - iv. My selected status remains visible in the filter panel after filtering.
      - v. Other filters—such as tags or date range—still work together with the status filter, and only posts matching all filters are shown.
      - vi. The status filter is not shown when viewing someone else's shared feed; I can only view archived posts on my own feed.
    - b. Assigned to: Ameh Shrestha
- 

## Social & Sharing

- 27. **As a logged in user, I want to provide a share link** to others, so that I can share all my posts with them for a limited time
  - a. Assigned to: Eshan Kelkar
  - b. Background:
    - i. Given I am signed in with Google

- c. Acceptance Criteria 1: User views the feed share link
    - i. When I visit the dashboard page
    - ii. And I click "Share Feed"
    - iii. Then I should see my feed share link
    - iv. And I should see the feed share link validity time
  - d. Acceptance Criteria 2: User clicks on his own feed share link
    - i. When I visit the feed share manager page
    - ii. And I click "SHARE FEED LINK"
    - iii. Then I should be on the dashboard page
    - iv. And I should see "Cannot share feed with self!"
- 28. **As a user, I should be able to use the feed share link of another user,** so that I can view the other user's feed
  - a. Assigned to: Eshan Kelkar
  - b. Background:
    - i. Given a user exists with:
      - 1. | email | altair@assasin.com |
      - 2. | first\_name | Altair |
      - 3. | last\_name | Assasin |
  - c. Acceptance Criteria 1: Non logged in user uses the feed share link
    - i. Given a valid Google OAuth response
    - ii. When I visit the feed share link of user "altair@assasin.com"
    - iii. Then I should be on the login page
    - iv. When I click to sign in with Google
    - v. Then I should be on the shared user feeds page
    - vi. And I should see the shared feed entry for user "altair@assasin.com"
  - d. Acceptance Criteria 2: Logged in user uses the feed share link
    - i. Given I am signed in with Google
    - ii. When I visit the feed share link of user "altair@assasin.com"
    - iii. Then I should be on the shared user feeds page
    - iv. And I should see the shared feed entry for user "altair@assasin.com"
  - e. Acceptance Criteria 3: User visits the shared user feed via shared user feeds listing
    - i. Given I am signed in with Google
    - ii. When I visit the feed share link of user "altair@assasin.com"
    - iii. Then I should be on the shared user feeds page
    - iv. When I click to view feed share entry of user "altair@assasin.com"
    - v. Then I should be on the shared feed page for user "altair@assasin.com"
- 29. **As a logged in user, I should be able to view both my feed and the feeds shared with me,** so that I can view all posts I've access to
  - a. Assigned to: Eshan Kelkar
  - b. Background:
    - i. Given I am signed in with Google
    - ii. And a user exists with:
      - 1. | email | altair@assasin.com |

- 2. | first\_name | Altair |
      - 3. | last\_name | Assassin |
    - iii. And posts exist with following duplicated details for multiple users:
      - 1. | creator\_emails | test-user@example.com, altair@assasin.com |
      - 2. | title | Test Post 1 |
      - 3. | archived | false |
    - iv. And posts exist with following duplicated details for multiple users:
      - 1. | creator\_emails | test-user@example.com, altair@assasin.com |
      - 2. | title | Test Post 2 |
      - 3. | archived | false |
  - c. Acceptance Criteria 1: Viewing posts of a feed
    - i. Given I have access to the feed of user "<feed\_owner\_email>"
    - ii. When I visit the feed page for user "<feed\_owner\_email>"
    - iii. Then I should see "Test Post 1"
    - iv. And I should see "Test Post 2"
      - 1. Examples:
        - a. | feed\_owner\_email |
        - b. | test-user@example.com |
        - c. | altair@assasin.com |
  - d. Acceptance Criteria 2: Visiting a post from the feed
    - i. Given I have access to the feed of user "<feed\_owner\_email>"
    - ii. And I visit the feed page for user "<feed\_owner\_email>"
    - iii. When I click to view post "Test Post 1" from the feed
    - iv. Then I should be on the view post page for "Test Post 1" for creator "<feed\_owner\_email>"
      - 1. Examples:
        - a. | feed\_owner\_email |
        - b. | test-user@example.com |
        - c. | altair@assasin.com |
30. **As a logged in user, I want to revoke feed access provided to others**, so that I can manage the people who can view my feed.
- a. Assigned to: Eshan Kelkar
  - b. Background:
    - i. Given I am signed in with Google
    - ii. And a user exists with:
      - 1. | email | altair@assasin.com |
      - 2. | first\_name | Altair |
      - 3. | last\_name | Assassin |
    - iii. And a user exists with:
      - 1. | email | ezio@assasin.com |
      - 2. | first\_name | Ezio |
      - 3. | last\_name | Assassin |
  - c. Acceptance Criteria 1: User feed can not be accessed by anyone
    - i. When I visit the feed share manager page

- ii. Then I should see "No user is accessing your feed"
  - d. Acceptance Criteria 2: User views users who can access feed
    - i. Given user "altair@assasin.com" has view access to my feed
    - ii. Given user "ezio@assasin.com" has view access to my feed
    - iii. When I visit the feed share manager page
    - iv. Then I should see "altair@assasin.com"
    - v. Then I should see "ezio@assasin.com"
  - e. Acceptance Criteria 3: User revokes feed access of another user
    - i. Given user "altair@assasin.com" has view access to my feed
    - ii. When I visit the feed share manager page
    - iii. And I click to revoke feed access of user "altair@assasin.com"
    - iv. Then I should be on the feed share manager page
    - v. And I should see "Stopped feed share successfully !"
    - vi. And I should not see "altair@assasin.com"
- 31. **As a logged in user, I want to ignore a feed shared with me**, so that I can manage the feeds shared with me.
  - a. Background:
    - i. Given I am signed in with Google
    - ii. And a user exists with:
      - 1. | email | altair@assasin.com |
      - 2. | first\_name | Altair |
      - 3. | last\_name | Assasin |
    - iii. And a user exists with:
      - 1. | email | ezio@assasin.com |
      - 2. | first\_name | Ezio |
      - 3. | last\_name | Assasin |
    - iv. And I visit the feed share link of user "altair@assasin.com"
